The Institute of Social Work together with CIF The Netherlands, will introduce you to the Dutch care system and different aspects of social inclusion. You will meet with (international) students of the minor program International Development Work, Dutch social work students and visit organizations. You will be asked to relate this information to your own work and you will, in interaction with lecturers, students and each other, share professional experiences in an international perspective. You will also be asked to present information on your own work, for which you will need to prepare a short presentation.

The program offers a great opportunity to learn about the changes that take place in our care system and how professionals and volunteers cope in their daily work. Besides this, you also learn more about social work, the culture of the Netherlands and that of other participants.

We look forward to welcoming you!
